## ABOUT

I build the data architecture and governance frameworks that regulated, Fortune 500 enterprises can't afford to get wrong. Over 19+ years, I've led enterprise data transformation, Business Intelligence, and Risk & Controls Governance (SOX, ITGC) programs — strengthening internal controls and turning complex data into decisions leadership can trust.

Outside the enterprise, I bring that same rigor to the classroom as visiting faculty at IIM Raipur, IIM Visakhapatnam, and other leading institutes, and as a Distinguished Toastmaster and TEDx speaker on the stage.

## SPEAKING & TRAINING TOPICS

### Data Governance & Risk Compliance

Enterprise data architecture, SOX/ITGC controls, and governance frameworks that hold up under audit.

### Technology & Career Strategy for MBAs

Translating technical experience into career capital — what recruiters and panels look for.

### Public Speaking & Leadership Communication

Toastmasters-tested frameworks for structuring a talk and commanding a room.

## WHAT PEOPLE SAY

*“Meticulous to the last detail — the kind of professional you rarely find, and even harder to replace.”*

KARTHIK · MD, US BANK
